AGING: 16 months in French oak barrels (53% new, 33% 1 year, 14% 2 year)

GROWING SEASON

2006 can be characterized as an early vintage. Warm to hot temperatures during bloom provided optimum conditions for pollination and fruit set. Warmer than average summer temperatures coupled with ample nutrients and soil hydration allowed the vines to photosynthesize at an excellent rate. There were a few spikes of hot weather during the third week of June, the third week of July, the middle of August, and the early part of September. Harvest at King Estate began on September 27th and was over by October 11th, the previous year October 11th marked the beginning of harvest.

2006 KING ESTATE DOMAINE PINOT NOIR

(Winemaker Tasting Notes)

Aroma: Cherry, floral, currant, cranberry and dried rose petal.

Flavors: Sweet entry with flavors of cherry, vanilla, caramel and pepper spice on exit.
