

OFFICIALLY CERTIFIED LARGEST BIODYNAMIC VINEYARD IN THE UNITED STATES BY DEMETER USA

What is Demeter?

Named for the Greek goddess of agriculture, Demeter was formed in Europe in 1932 following a series of lectures to a group of European farmers by noted scientist Rudolf Steiner. Steiner urged farmers to think of their farms not as factories but as living organisms. Now operating in 50 countries, Demeter USA was established in 1985 and remains the world's oldest ecological certification organization and owns the trademark to "Biodynamic".

King Estate
Family Owned & Farmed

"We are extremely pleased with the process, and take pride in knowing King Estate is the nation's largest Demeter certified biodynamic vineyard."

- Ed King, CEO of King Estate Winery
